Port Almanac—June 13.

Sun Rises	4.41 A. M.
Sun Sets	7.17 P. M.
Day's Length	14 H. 34 M.
High Water at Southport	9.46 A. M.
High Water Wilmington	12.16 P. M.

Thanks to the Wilson *Times* for its too flattering reference to this paragrapher.

We do hope none of the candidates who enter the goober-natorial race will be called peanut politicians.

Doubtless Senator Hanna is now convinced that as a "Rough Rider" Teddy carries everything before him.

The rush for our Beach resorts has not begun yet. But just wait until the fluid in the thermometers gets up into the nineties.

Should the Republican party remain in power ten years longer an investigation will have to be instituted to ascertain who stole the White House.

The decision in the Wilcox case is about right. All that saved him from the gallows was the failure of the prosecution to show that the murder was premeditated.

In order to still further thicken the muddle in Breathitt county, Ky., the *pro tem.* Sheriff is called an "elisor." That's to fool the murderous mountaineers.

The revival of the negro issue in the Ohio Republican platform foreshadows a sectional campaign next year. So much the worse for the negro and the Republican party.

The chairman of the Republican State Central Committee of Louisiana states that the next State Republican convention will be "white from end to end." This is contrary to all usage. In a minstrel show the end men are always black.

The Richmond *Times-Democrat* advises us that the first woman to be appointed on a Governor's staff is Col. Peabody, of Colorado, and that her uniform is simply stunning. And we doubt not she is a "staving" aide. But the esteemed *T-D.* fails to inform us whether or not the Colonel's uniform is of the bifurcated variety.

Mr. J. M. A. Watson, deposit clerk in the office of the Auditor of the District of Columbia, is "in the swim," too, being short in his accounts some $75,000. Curiously enough, Watson was not bonded and it is said the shortage was discovered by accident, although the peculations had been going on four years. "Thou shalt not steal" seems to have no place in the Washington decalogue.

LOCAL DOTS

— The annual meeting of the East Carolina Truck and Fruit Growers' Association will be held in the Court House on next Wednesday at noon.

— Schooner "Flora Rogers," Capt. Cranmer, cleared yesterday with cargo of 350,000 feet lumber, consigned to New York by the Angola Lumber Co.

— A big santification meeting, conducted by Elder Calvin Carr, is in progress at Hampstead, Pender county, and great interest is being manifested.

—Lumberton *Argus*: "Mr. D. C. Sinclair will run an excursion to Wilmington next Tuesday, starting at Marion and passing through Lumberton."

— A boy who has had experience in running Job Presses may secure employment by making immediate application. Must be a resident of Wilmington.

— About 200 young people enjoyed the N. N. S. excursion up and down the river on the steamer "Wilmington" last night. Refreshments were served.

— The Post Exchange Band of Fort Caswell will give a sacred concert in the new pavilion at Carolina Beach from 4 to 6 o'clock to-morrow afternoon. Everybody invited.

— Henry Waddell, colored, was arrested after a hard chase by Constable Savage last night, charged with the larceny of an amount of money from Laura Coppedge, also colored. He will be tried in Justice Bornemann's court to-day.

— Friends of Mr. and Mrs. L. D. Bordeaux sympathize with them in loss of their infant daughter, whose death occurred Thursday night at the family residence, 901 South Second street. The remains will be interred to-day.

— Mrs. M. E. Barber announces the forthcoming marriage of her daughter, Miss Mary Agnes Barber, and Mr. James Frederick Russ, which will take place Wednesday evening, June 24th, at 9 o'clock, at No. 517 South Front street.

Entertained Prominent Educators.

State Superintendent J. Y. Joyner, Prof. Alexander Graham, of Charlotte, and Prof. F. P. Hobgood, of Horner's Military School, at Oxford, prominent educators here attending the Teachers' Assembly, were entertained at dinner at The Orton yesterday afternoon by the local school authorities. Among those present, besides the guests, were Chairman W. H. Sprunt, of the County Board of Education, County Treasurer H. McL. Green; County Superintendent Washington Catlett; Mr. James F. Post, chairman of School Committee No. 1, and Mr. Samuel Northrop, chairman of School Committee No. 2. The visitors were shown over the city and returned to the beach about 6 o'clock.

Advancement of Wilmington Boy.

The Norfolk (Va.) *Public Ledger* says: "Mr. Harris Doyle, a young resident of this city, has just received a deserved promotion in the service of the Seaboard Air Line—having been advanced from a position in the Passenger Department to a more desirable one in the comptroller's office. Mr. Doyle started as office boy in the employ of said company about five years ago, having come to this section from Wilmington, N. C. His promotion has been steady, and his friends are expecting him to take high rank as a railroad man." Harris is the son of Mr. George Doyle, formerly of this city but now of Portsmouth. The young man will be remembered as one of the Western Union hustling messengers.

Rid of Undesirable Characters.

In the municipal court yesterday the Bentley and Brock women were given until Tuesday noon to leave the city and judgment was suspended upon same conditions as to Mamie Riddley, a Goldsboro negro woman, who was arrested for drunkenness and disorderly conduct at Fourth and Bladen streets. Tom Mills, colored, for violation of the anti-spitting ordinance at Front street market, was allowed to pay the cost and go. Albert Nelson, colored, drunk and down, was fined $5 and costs.

Cotton and Naval Stores.

The weekly statement of cotton and naval stores posted yesterday at the Chamber of Commerce shows receipts as follows: Cotton, 50 bales; spirits, 626; rosin, 1,538; tar, 323; crude, 760. Same week last year: Cotton, 380; spirits, 692; rosin, 1,688; tar, 118; crude, 523. The crop year receipts of naval stores show a falling off in all items except crude, in which there is an increase. Receipts of cotton since September 1st have been 327,658 bales, against 256,140 during the corresponding period last year.

School For Trained Nurses.

The excellent school for trained nurses so successfully conducted during the past year in connection with the James Walker Memorial Hospital will close Tuesday, June 30th, with appropriate exercises, including the presentation of diplomas and an address by Dr. W. J. H. Bellamy. The programme of the commencement exercises will be out in a few days.

NEW ADVERTISEMENTS.

Carolina Beach—Sacred concert.
Half-holiday—Spend at Wrightsville
People's Savings Bank—Statement.
E. C. Truck and Fruit Growers' Association—Notice.

BUSINESS LOCALS.

Enjoy moonlight at Wrightsville.

BUYS NEW EQUIPMENT

Consolidated Railway, Light and Power Company to Guard Against Emergencies.

SERVICE IS UNSATISFACTORY.

New Machinery Costing $10,000 Will Be Installed As a Matter of Precaution and to Prevent Recurrence of Unavoidable Accidents.

There is no occasion for a concealment of the fact that the public is sorely disappointed at the apparent inability of the suburban car line to properly handle the traffic to and from Wrightsville beach under present conditions. The fact is none the less disappointing to the C. R., L. & P. Co., owner of the system, which appears to have been pursued relentlessly during the past several weeks by ill luck of the most tantalizing variety. The trouble is due to the burning out of the new transformers which convert the high tension current, which is sent down from the main station at 10,000 volts, into a five hundred volt current. The crippled condition dates from May 24th when an accident occurred at the sub-station of the company at Wrightsville. The inadequacy of the system to handle the traffic showed up badly upon the occasion of the Kinstonn excursion a short time ago; again on Thursday and still again yesterday afternoon when it became necessary to shut down one of the rotaries in the Wilmington station until some temporary repairs could be made. Not a wheel under a car of any sort moved for an hour and a quarter and the city was filled with excursionists wanting to get to the beach and others at the beach wanting to get to town.

General Manager Skelding and the Westinghouse electric experts here have been doing all in their power to remedy the conditions, but it has been found impossible to get things on a satisfactory basis until some new parts are sent from the Westinghouse works in Pittsburg. The additional machinery is promised by June 25th.

Mr. William W. Randolph, consulting engineer of the company, arrived in the city Thursday night and President Hugh MacRae arrived yesterday morning to look into the trouble. After consultation with General Manager Skelding it was decided to take important steps to minimize the effect of any possible accidents of a similar nature in future, and orders were placed at once for $10,000 worth of additional machinery to be used simply as spare, or duplicate, parts; so that in case of an accident to any one part now in operation this new equipment will be at once put in its place.

Pending the arrival of the new machinery it has been found necessary when travel is heavy to operate steam excursion trains on the road, and a locomotive has been secured from the Atlantic Coast Line for that purpose. The supplementary steam power was used yesterday for the first time. Locomotive No. 122, in charge of Engineer Tom Rothwell, was attached to four trailers and assisted in carrying the excursionists to and from the beach.

The Consolidated Company desires to assure the public that the accident which happened is one which was rather unusual and not to be expected; but now that it has happened, the company determines to go to much greater lengths than would usually be considered necessary in order to provide safeguards in every way, and give to the public the best possible service.

TWELVE-INNING BALL GAME.

Home Team Defeated Yesterday by Returned Collegians—Score 2 to 1.

It required twelve innings of fast snappy ball to determine the result of yesterday afternoon's game of the national sport at Hilton between the joint C. F. A. and W. H. S. team and the "Collegians." In the twelfth inning the college team scored one, making the result two to one in their favor. The features] were Green's pitching and Myers' work at short for the home team and Heide's fielding for the "Collegians." The line-up and score by innings, as furnished the press, was as follows:

HOME TEAM.		COLLEGE TEAM.
King	c.	Moore
Green	p.	Smith
Watson	1b.	McIntyre
Morse	2b.	Emerson
Mills	3b.	Calder
Myers	s.s.	Peschau
Heide	l.f.	Brinkley
James	c.f.	Orrell
Cantwell	r.f.	Farriss

THE SCORE BY INNINGS.

C. F. A. & W. H. S.....0 0 0 0 0 0 0 0 1 0 0 0—1 4 3
COLLEGE TEAM.....0 0 0 1 0 0 0 0 0 0 0 1—2 2 3

Another fast and exciting game will be played at Hilton this afternoon at 4 o'clock, when the College team will engage a nine from the A. C. L. shops. Sellers and Register will compose the battery for the latter team. An admission of only 10c will be charged.

Three Excursions Yesterday.

The town was full of excursionists again yesterday, three special trains having arrived during the day. Mr. Frank Gough, of Lumberton, the popular manager, brought down 650 people from his enterprising town, over the Seaboard Air Line; a second train came from Whiteville via Conway, S. C., bringing about 150 people, and a third arrived from Sanford and intermediate points, bringing about 300 persons. The two first named excursions returned last night, but the Sanford party will not return until 3 o'clock this afternoon.

ECHOES FROM THE REUNION.

Regular Meeting of Cape Fear Camp of Veterans Last Night—Memorial Day Change—Other Business, Etc.

Last night's regular monthly meeting of Cape Fear Camp No. 254, United Confederate Veterans, was fraught with much interest, the routine proceedings having been enlivened by reports from the New Orleans reunion and witty anecdotes of things seen and heard at that great gathering by the delegates from this city, among whom were Commander W. J. Woodward, Adjutant A. L. DeRosset and Capt. T. D. Meares. The erroneous report which went out from Atlanta in regard to Gen. Wheeler's cold reception upon his appearance in his United States army uniform, was denounced in scathing terms as was also its author. The Wilmington delegates were in position to know to the contrary as to Gen. Wheeler's reception by his former comrades, and the report provoked the greatest indignation.

Commander Woodward, who is on the Finance Committee of Gen. Gordon's staff, said that New Orleans raised $118,000 for the entertainment of the veterans and the same was placed in the hands of the committee for expenditure as it seemed best. The unexpended balance of $8,500 was turned over to the Louisiana Soldiers' Home. New Orleans wants the reunion again; New York city has offered to pay the expenses of every veteran who would attend a reunion in that city, and Louisville has also made a strong bid for the next meeting.

The State reunion, it was reported, will be held during July or August of this year, most probably at Greensboro. However, the matter has been left to the committee of which Capt. James I. Metts, of this city, is a member.

The Commander reported that great interest is being taken in the further South in the matter of changing Confederate Memorial Day throughout the South to June 3rd, Jefferson Davis' birthday. So far as Cape Fear Camp is concerned, however, the entire matter was referred to the United Daughters of the Confederacy with the statement that whatever action they may take will meet with the cordial acquiescence of the Camp. It is also being suggested in Confederate circles that the next Legislature be asked to make Davis' birthday a legal holiday.

The meeting of the camp last night was presided over by Commander W. J. Woodward. A record of the proceedings was kept by Adjutant A. L. DeRosset and a goodly number of veterans were in attendance. The Adjutant reported that the Camp had turned out in uniform for Memorial Day and again to attend the funeral of the late Comrade W. R. French.

The Commander appointed as the committee on Membership, Comrades W. P. Oldham, Geo. W. Huggins and Thos. D. Meares.

Upon request of Comrade W. L. DeRosset the commander was instructed to suggest to Governor Aycock the appointment of Comrade Geo. W. Huggins to fill the vacancy on the county pension board, caused by the prolonged absence from the city of Capt. Walter G. MacRae. The Board will now be composed of Comrades W. L. DeRosset, O. M. Fillyaw and Geo. W. Huggins.

PRETTY WEDDING IS THE COUNTRY.

Marriage of Miss Sudie Mills and Mr. G. E. Parker Thursday Evening.

Located in a picturesque grove of stately pines and less pretentious oaks stands Masonboro Baptist church, which was the scene Thursday evening at 8 o'clock of one of those quiet country weddings which are always interesting because of their simplicity and their striking contrast to the society weddings of the present day.

The contracting parties were Mr. Columbus Edward Parker and Miss Sudie Alice Mills. The ceremony was performed by Rev. Robert H. Hewlett, in the presence of a large number of residents of Masonboro and Wilmington.

Miss Lily E. McCarson who, though blind, is an accomplished musician, was organist, and rendered beautifully the music selected for the occasion.

The bride is the adopted daughter of Mr. and Mrs. Benjamin Farrow of Masonboro. She is a pronounced brunette, petit and handsome, and in her elaborately trimmed wedding gown of white organdie was "pretty as a pink." The groom is tall and handsome, and is a native of Duplin county, though now a resident of Wilmington. He is a mechanic, skilled in carpentry and work-work generally. He is also engaged in agricultural pursuits, owning a fine farm in Pender county, near South Washington.

After the marriage ceremony the happy pair received the congratulations of relatives and friends and came to the city, where they are guests of the Central House, 113 Market street.

Not the least of the attractive features of the day was the reception given at the Farrow home in the early evening, where an old-fashioned country dinner was enjoyed by a "full house." The dinner proper was followed by a second course, consisting of tempting delicacies for the special benefit of those of the guests who have a penchant for the "sweets" of life. The pleasure of the occasion was greatly enhanced by the musical programme so charmingly rendered by Miss McCarson.

— Children's Day exercises will be observed at the First Baptist church to-morrow night. Rev. E. J. Edwards will preach at the morning service.

ASSEMBLY ADJOURNS

Twentieth Annual Gathering of North Carolina Teachers Closed Last Night.

EXCURSION DOWN THE RIVER.

Visitors Will Be Guests of Capt. Harper This Afternoon—Resolutions of Respect—Able Discussions of Timely Topics Yesterday.

The closing sessions of the Teachers Assembly at Wrightsville yesterday were marked by a number of interesting papers on educational topics and a fine address at night by Prof. P. P. Claxton, of the department of pedagogy at the University of Tennessee. Delegates are already beginning to leave for their homes, but a few will remain for to-morrow, when they will be given an excursion down the Cape Fear river on the steamer "Wilmington." Dr. Venable and Prof. Noble left during the day to prepare for the opening of the Summer School at the University Monday, but there are still many prominent members present and all are enjoying themselves.

Upon the opening of the Assembly in the morning, the committee appointed for that purpose Thursday, reported very feeling resolutions upon the deaths of the late D. H. F. Linscott, professor of Latin in the University, and C. C. Crittenden, professor of pedagogy in Wake Forest College, both of whom were vice presidents of the Assembly. The resolutions were unanimously adopted, copies of same ordered spread upon the minutes, sent to the respective families, the State papers and the trustees of the institutions which they so faithfully served.

"Modern Language in Secondary Schools," the first number on the day's programme, afforded an interesting discussion, which was led by Prof. J. C. Ransmeier, of Trinity College. He discussed the subject from the standpoints of time, value and discipline. The time should be early life. A knowledge of the languages is indispensable to the professional men of to-day—the physician, the chemist. French and German are also of great value to the commercial world. Prof. Ransmeier made a strong plea to the teachers to see that the future generation is better trained in modern languages than the people of to-day.

"School House Building" was discussed in able manner by Prof. E. C. Brooks, of Monroe, who said the great care now being taken in the construction of school houses is a proof of the interest taken in education by the people. The first step in modern education is the development of the mind. The environment of the child entering school is changed from the free life it has been leading. The change must be made as attractive as possible. For reasons of health the location of schools should be carefully selected. Prof. Brooks discussed fully the material construction of the school house and gave many valuable suggestions along that line.

Mrs. Hollowell, president of the Association for the Betterment of School Houses, gave an interesting review of the Association's work and its objects.

"The Influence of the Rural Library" was the subject of an able paper by Supt. R. M. Davis, of Tarboro. The library may have a far-reaching effect upon an entire community, so care should be taken to choose only good books. The influence of good books is incalculable, a powerful factor in the formation of the character of both child and parent. They enlarge one's capacity for enjoyment and tend to broaden the mind and increase the mental power. A good book is some times more influential in a community than a good man, therefore only the best books should enter our libraries.

"The Library in College Work" was ably presented by Librarian W. S. Bernard, of the University. North Carolina ranks twenty-seventh in the number of its libraries. Mr. Bernard gave many interesting statistics regarding the State's libraries. The student reads for all or either of three objects: pleasure, culture, research. Each of these sub-divisions were treated at length, using the University's splendid library as an example. Coupled with the address Mr. Bernard gave much profitable information regarding the management of a library.

One of the finest papers during the entire session of the Assembly was read by Prof. R. D. W. Connor, of Wilmington, upon "Calvin Henderson Wiley and the Common Schools of North Carolina." The life and services of that distinguished educator were sketched from the time he assumed charge of the schools in 1852 until he laid down his work during the days of reconstruction. His unselfish devotion to the cause, his untiring efforts and self-sacrifice were lauded. Prof. Connor before closing said such was the work of the man whose name the teachers of North Carolina are permitting to sink into oblivion. Members of the legal profession are careful to see that the names of Badger, Iredell and Ruffin are honored; our soldiers see to it that honor is paid to the names of Nash, Davidson, Pettigrew and Hill, and in honoring the heroes of their profession they honor themselves and exalt their profession in the eyes of others. Let the teachers follow their worthy example and rescue from the dust of oblivion this name which should shine so brightly in the roll of North Carolina's famous sons. "I do not know," Prof. Connor concluded, "how a man's character and ability are to be measured if it be not by the work he does in the world. I do not know how his work is to be measured if it be not by the results it has upon civilization. If these results be for the permanent up-building of the State, the work may be called a great work and the man who does it a great man. If these standards be correct, surely, surely, Calvin H. Wiley deserves to be ranked by the side of Caswell and Macon and Vance. And if he deserved to be so ranked, how can we save ourselves from the just charge of ingratitude, if we do not see that it is done?"

The papers on "How to Keep up the Rural Library," by Superintendent Cochran, of Mecklenburg, and the "Growth of City Libraries in North Carolina," by Superintendent E. P. Moses, of Raleigh, were omitted, owing to the absence of those gentlemen.

The Night Session.

Chas. J. Parker, of the Educational Bureau in Raleigh, called the meeting to order at night.

Secretary Carmichael read the following resolutions, which were unanimously adopted:

WHEREAS, Since the last meeting of the Assembly, Eugene Graham Harrell, the organizer and first secretary the North Carolina Teachers' Assembly, departed this life in the service of his country in the Philippine Islands. Therefore, be it,

Resolved, That we express our recognition of his valuable services to this Assembly and in perpetual memory of the same order this resolution placed on record.

In the Spring of 1883, Eugene G. Harrell having conferred with a number of teachers and others interested in education in North Carolina, issued a call for a meeting for the purpose of organizing an Educational Association. In response to this call a number of teachers and friends of education met at Wrightsville, N. C., in the Summer of this year and organized the North Carolina Teachers' Assembly for the purpose of stimulating interest in education throughout the State, and bringing together for social intercourse and discussion of educational policy, leading citizens of the State and teachers of all grades and kinds of schools. The burden of preparation and management of this session and of all the earlier sessions of the Assembly was assumed almost entirely by Mr. Harrell, who willingly and enthusiastically gave his time and energies to it. Always courteous and polite, he was untiring in his personal service for the comfort of members of the Assembly and attention to the details of management. The columns of his journal, *The North Carolina Teacher*, were used unsparingly in advertising the meetings of the Assembly and in reporting its proceedings.

During the twelve years of his uninterrupted service as secretary he was the most potent factor in determining its policy, and for this reason he deserves to be remembered in connection with the Assembly services to the causes of education."

Resolutions of Appreciation.

The following resolution was offered by State Superintendent Joyner and was supplemented by remarks from Prof. W. J. Ferrell, of Pee Dee Institute, and Prof. Johnson, of St. Paul's Academy, after which it was unanimously adopted:

"*Resolved by the North Carolina Teachers' Assembly:*

1. That we extend to Mr. J. H. Hinton, proprietor of the Seashore Hotel, our hearty thanks for his uniform courtesy and excellent entertainment.

2. That we express to the Wilmington Chamber of Commerce and to County Superintendent Washington Catlett our sincere gratitude for their active aid in making this session of the Assembly so pleasurable and successful.

3. That we desire to thank the railroads for reduced rates and courtesies and to thank the Wilmington press for its excellent reports of our meetings."

Two Fine Addresses.

After adopting the resolution of thanks for its entertainment the Assembly heard with great pleasure splendid addresses by Prof. W. P. Few, of Trinity College, on "Athletics in Schools and Colleges," and Prof. P. P. Claxton, on "Universal Education." Both were listened to with great pleasure and profit.

Prof. Claxton said he was proud to return to North Carolina and meet the people engaged in the same work in which he was so deeply interested.

Education must be universal. He believed within the next decade all Southern States would give freely to the cause of education. What shall be the education of the masses of the people? Time was when we did not think education belonged to the masses. In Tennessee many people do not believe it necessary to read and write. But that feeling is not common now. Formerly those who were educated were intended only for professions. It was not the purpose of education to take children out of the profession of their fathers, but to relieve them and help them; to educate everybody for some useful work. Some day we will realize that the digging of a ditch, when done well, is worth doing. He believed music should be put in the school course. It appeals to the emotions of the human heart. We should know the best in art. Not all of us can learn to do it, yet we can learn to appreciate it. We should be taught the love and elemental knowledge of nature; to take interest in streams and fields and forests, etc. Those things should come in the schools—literature, music, art and nature. Also the history of our people and knowledge of the world in which we live should be cultivated. Every public school should have a little plot of ground on which may be demonstrated forms of agriculture. It is important to teach the girls how to cook properly. Make the home sanitary and a place fit to live in. It is necessary to teach children the elements of physics, biology and chemistry. No one teacher can teach it all. It means school consolidation; it means several teachers in a school. It is necessary for a man to be in the school; for his strong discipline, for management, for guiding unruly passions. Education of all of the people must have reference to the life of all the people. It is universal education.

The Excursion Down the River.

Just before final adjournment of the Assembly which was attended by no formalities, announcement was made that all who desired to accept the hospitality of Capt. Harper for a trip down the river should be present at the "Wilmington's" wharf this afternoon at 2 o'clock. The trip will embrace all points of interest down the river and will be quite an enjoyable one.

PERSONAL PARAGRAPHS.

— Mr. A. W. Brafford, of Fayetteville, is in the city.

— Mr. A. Sidney Bayles, of Savannah, arrived last night.

— Mr. and Mrs. W. S. MacRae, of Fayetteville, were Orton guests yesterday:

— Mr. W. D. Malpass, of Burgaw, was a welcome visitor to the STAR office yesterday.

— Rev. J. P. Bennon, of Columbus county, is visiting in the city, the guest of his daughter, Mrs. Russ, Chesnut between Third and Fourth Fourth streets.

— Mr. E. E. Wintese, of Raleigh, trainmaster of the second division of the Seaboard Air Line, accompanied the excursion from Lumberton over his road yesterday.

— Fayetteville *Observer*: "Misses Jennie and Fannie Murchison, of Wilmington, who have been visiting Miss Jean Pemberton, left this afternoon for their home."

— Mr. F. O. Spain, of Atlanta, is in the city, the guest of his friend and former college mate, Maj. Wm. F. Robertson, with whom he attended the Citadel in Charleston.

THE BEACH TELEPHONE EXCHANGE

Was Installed Yesterday at Wrightsville. Much Improved Service.

The new telephone exchange on the beach was installed for the season yesterday by Local Manager McManus and Mr. E. B. Henthorne, of the construction department. The exchange is in the same building as last year but the service will be much improved. The new switchboard is for the metallic circuit and long distance transmitters are used. Thus far 19 subscribers are connected with the beach exchange but the number will be considerably increased as the season progresses.

Miss Sudie Conway, one of the regular operators in the city exchange, will have charge of the beach exchange during the day and Mr. Lawrence Everett will have charge at night. The new exchange will be in perfect working order in a day or two.

ROMANTIC MARRIAGE AT MAXTON.

Miss L. Bee Weatherly the Bride of a Promising Young Savannah Man.

[*Special Star Correspondence.*]

MAXTON, N. C., June 11.—Miss L. Bee Weatherly, the beautiful and accomplished daughter of Mr. and Mrs. J. B. Weatherly, the popular proprietor of the Maple Shade Inn, was united in marriage last Thursday afternoon to Mr. C. Finly Rossignol. The marriage was quite a surprise to her many friends and admirers for it had been rumored that a son of our sister State, a man of sterling qualities and a devoted admirer for several years, would lead her to the hymenal altar. But "there is many a slip between the cup and the lip." Mr. Rossignol came here with pluck and determination, made a final effort, talked winning love, the heart was over-persuaded, and even before he was suspected by the parents, he had won her consent for an immediate marriage, and at six o'clock that afternoon they were married and soon the happy couple were on their way to Savannah, Ga., where they will reside in the future. The bride is the only daughter and a pet of the family. Every effort had been made to educate her mind, as well as her heart, and she had developed into a woman of whom they justly felt proud. Mr. Rossignol is from Savannah, Ga., and is a member of a well known French Huguenot family of that city; intelligent, sober and having the qualities that make up the man. Our best wishes go with the happy couple.

The Morning Star

WILLIAM H. BERNARD.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 13.

NO QUININE AND NO FEVER.

News and Courier: Capt. S. P. James, who has recently written a book on malaria and mosquitoes, says *American Medicine*, had for many years made a study of anopheles in India. He says that the usual distance of flight of this germ-carrying insect "rarely exceeds half a mile, and at this distance from the focus of infection a person is practically safe from malaria." This is of special interest in Charleston just now, because the Drainage Commission is making a belt of mosquitoless land, four or five miles wide, between the city and the swamps north of it, and if what Capt. James says be correct the anopheles species, at least, should never cross that defensive strip. The two rivers on the east and west of the city, with a very little drainage beyond them, should make the city proof against any fresh infection from the country regions around it.

Capt. James further found that "altitude had no particular protective influence unless beyond 4,000 feet," and this finding affords material for reflection to the sanitary authorities of inland cities and towns.

Nothing less than an elevation over 4,000 feet will protect such places from anopheles. They, too, should drain all the region for a mile or two around each of them. "Complete protection," the same authority goes on to say, "from both malaria and blackwater fever may be ensured by any person who is willing to take the trouble to pay scrupulous attention to the use of a good mosquito curtain at night—and to protect himself adequately from being bitten by mosquitoes during the evening hours. If these simple precautions are taken it is quite unnecessary to use quinine as a prophylactic." "No other precautions than these," he remarks, "have been taken by any of us during our tours through some of the most malarious parts of India; and none of us have experienced a day's fever." By the use of the same precautions, and without taking any quinine, *American Medicine* adds, Dr. Stephens previously "passed two years in the most malarious parts of Africa without a single attack of malaria."

Emin Pasha, who spent fifteen or more years in the same country, it will be remembered, testified that he had found the use of a mosquito net at night singularly efficacious in protecting him from malaria, although, strange to say, it never occurred to the shrewd scientific observer that he shut out the disease by shutting out mosquitoes. His idea was that the net excluded some poisonous element in the air.

His experience, and that of Dr. Stephens and Capt. James is all to the same effect and is highly encouraging at any rate. Mosquito curtains are rather cheaper than quinine and easier to take as a steady diet. Persons in malarious parts of this country should give them a fair trial, seing well to it, of course, that they also take "adequate" steps to protect themselves from mosquito bites in the evening hours. For what shall it profit any person to sleep under a "canopy" if he is well bitten by anopheles before he crawls under it?

A GREATER THAN HANNA OR QUAY.

N. Y. *Sun*: There will not be much public interest in the discussion of the question whether the Hon. Marcus Alonzo Hanna or the Hon. Matthew Stanley Quay would prove the more trusty and efficient person as chairman of the Republican National Committee and chief engineer of the campaign next year.

This is now a mere problem of comparative anatomy rather than a question of practical importance. Quay has his points of excellence, and Hanna has his. Both are veterans. Both have undertaken large contracts in their time, and carried the same to a successful conclusion. Each of them has his own methods and his own accumulation of experience in handling the frying-pan. If the choice were limited to high-grade experts of the second class and the old school, a competition between Hanna and Quay would wake the snakes.

In the evolution of the art of political management, however, there has arisen a master to whom either Quay or Hanna might profitably go for instruction in the higher branches. He has put them both into the second class. He is unquestionably in the first class of contemporaneous American campaign managers, and is there all by himself.

The most astonishing thing about the sudden rise of the Hon. Theodore Roosevelt to acknowledged supremacy in practical politics is the circumstance that only eighteen months ago he was popularly supposed to be so innocent and untutored in this respect as to need a guardian. When he invited the Hon. Henry C. Payne of Wisconsin to a seat in his Cabinet, everybody hailed that appointment as the filling of a conspicuous void in the establishment. "Now the President's political interests will be taken care of," people said. "He can attend to the duties of his office and make occasional speeches with entire tranquility. Payne is on deck. Payne won't let him do anything foolish. The Postmaster General knows the game, and he's there to play it."

In less than one year and one-half we perceive an astounding spectacle—the President running his own exalted office, making occasional speeches at the rate of 263 in sixty-six days, running his political campaign for the nomination with unprecedented energy and supreme contempt for the academic rules of procedure, and in addition to all his other occupations, actually turning around to pound Payne into a heartier performance of the special detail duties of the latter's Department!

What need of a Hanna or a Quay, any more than of a Payne? If the Hon. Theodore Roosevelt wins the Republican nomination for President in 1904, it will have been his own personal achievement. Whoever is nominally at the head of the campaign organization will be there because Mr. Roosevelt puts him there. But in reality the sole manager of the canvass for Mr. Roosevelt's election will wear Mr. Roosevelt's hat, precisely as the sole manager of the preliminary canvass for nomination has continuously worn Mr. Roosevelt's trousers.

Substantially the same thing may be said in advance concerning the genesis of the platform on which Mr. Roosevelt, if nominated, will run.

TWINKLINGS

— Knox—Why do you always put "dictated" at the bottom of your letters? You have no stenographer. Knox—Well, you see, I'm a very poor speller.—*Evening Wisconsin.*

— Murphy—Will ye give me yer promise that ye'll love me foriver? Bridget—Sure, an' Oi'd loike to do that same, Murphy, but Oi'm hardly of the opinion that Oi'll lasht as long as that.—*Ram's Horn.*

— The Medium—Hark! Hush! The departed ones are signalling me from the other world! Alas! I am weary and depressed. Skeptic—Yes, ma'am, that's because your spirits are flagging!—*New York Sun.*

— "Poor man," she said, stooping over the victim who had just been dragged out from under her automobile, "have you a wife?" "No," he groaned, "this the worst thing that ever happened to me."—*Chicago Record Herald.*

— He—Miss Withers is looking wonderfully bright and pleasant tonight. She—Isn't she? That old bachelor she was speaking to just now was so afraid of her that it made her feel quite young and dangerous again.—*Brooklyn Life.*

— When they reproached the reformer with the dowdiness of her gown she smiled sadly. "Oh, how can one think of one's own clothes when there are so many statues and paintings and pictures without any clothes at all!" she exclaimed with emotion.—*Puck.*

— Mrs. O'Hooligan (in a hoarse whisper) — Wake oop, Moike! There's a burglar in th' room! O'Hooligan—Rist asy, me darlint. Faith, an' it's mesilf thot has me eye on him, an' if he foinds anything Oi'll git oop an' make him gimme half, b'gorry!—*Chicago News.*

— "I'm the gas man; just dropped around to see if you need anything; anything out of order; any complaints against the company?" "No," I don't think I need anything just now, but I've got a complaint. The meter works too hard for the company. My gas bill is entirely too big." "Oh, don't call that a complaint. It's only a jolly. Good morning."—*N. Y. Press.*

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequaled. A recent expression from T. J. McFarland, of Bentorville, Va., serves as example. He writes: "I had Bronchitis for three years, and was doctored all the time without being benefitted. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by R. R. BELLAMY, druggist. Trial bottles free; regular sizes 50c and $1.00. †

For Over SIXTY Years

MRS. WINSLOW'S SOOTHING SYRUP has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, soften the gums, and allays all pain; cures wind colic, and is the best remedy for diarrhœa. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind. 1

KINDLY TAKE NOTICE that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren Street, New York. †

SPIRITS TURPENTINE.

— Charlotte *Observer*: By the collapse of a barn loft at Mr. C. C. Moore's Double Oaks Dairy, last night, 40 cows were covered by falling debris. Three of the animals were killed.

— Jefferson *Recorder*: One day last week we noticed a liquor caravan go through town from Wilkes county. There were ten men horseback. They must have had 30 or 40 gallons among them.

— Greensbro *Record*: News comes from Washington that a fight of long strnding over the Mt. Airy postoffice is to be settled with the early appointment of Albright, who is ex-Congressman Blackburn's candidate.

— Mount Airy *News*: There is still talk of extending the Mount Airy & Eastern Railway through to the N. & W. It is believed by many that in a few years Mount Airy will be connected with the great west over the Mount Airy & Eastern.

— Asheville *Citizen*: Dr. H. C. Jones, one of the most highly esteemed men in Mills River, died at his home at that place at 8 o'clock last night. He suffered a stroke of paralysis six months ago and never recovered from its effects.

— Rockingham *Anglo-Saxon*: Mr. Geo. Entwistle has accomplished the difficult feat of growing Irish potatoes on the top of the bush, instead of under the ground. He showed us a potato stalk a few days ago which had a half dozen well developed potatoes in its branches.

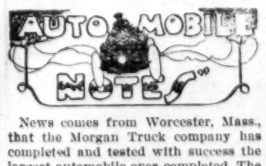
— Marion *News*: J. S. Grant, of Curfew, brought to our office yesterday a hog tusk eight and a half inches in length. The hog was the property of Mr. J. Parker. The hog went wild at two years and was twelve years old when recaptured. He evidently was a dangerous "critter."

— Laurinburg *Exchange*: Mr. R. W. Wallace showed us a leaf of tobacco this week that measured 13 by 25 inches. It was plucked from his crop which he is working on Mr. R. E. Warwick's place. Mr. Wallace has four acres like this and says there are eight more acres on the same plantation fully as good as his.

— Charlotte *Observer*: In the District Court yesterday C. J. Farmer, formerly postmaster at Crouse, was arraigned on the charge of embezzling the sum of $967.10 from the postoffice money order department, while he occupied that position of trust. The jury returned a verdict of guilty and Judge Boyd fined the defendant $1,000, and sentenced him to a term of six months in the jail of Lincoln county.

— Washington *Progress*: Hyde county is one of the most prolific counties in the State. Prolific in crops, in fish and oysters, in game of various kinds. She is also prolific in gentlemanly men and beautiful ladies. And now the news comes that Mrs. Lula Bowen, a former native of this section, but now resident of Belhaven, recently presented her husband, Mr. Tom Bowen, with triplets, two boys and one girl, all alive and doing well.

— Clinton *Democrat*: Mr. P. F. Stevens wears the belt as the champion cabbage raiser. We saw one from his crop at the retail store of Mr. R. B. Southerland that weighed 22 pounds. —— The aggregate amount of strawberries shipped from Clinton alone this season is in round numbers 1,200 crates; and at an average of $2.50 per crate, would reach $30,000. —— A number of farmers in Newton Grove, where a destructive hail fell a few days ago, have plowed up their land set in tobacco and planted cotton, corn or other crops; and in some sections of Mingo and Westbrook's, where the tobacco had "buttoned out" extensively, the planters have also plowed up and planted the land in other crops.



News comes from Worcester, Mass., that the Morgan Truck company has completed and tested with success the largest automobile ever completed. The vehicle, says the Scientific American, has a capacity of ten tons to a load and is built entirely of steel. The motor used is a steam engine. The boiler is of the torpedo water tube type. The automobile is so constructed that two or three loading bodies can be used, removing the trucks and running gear and placing them under another body, thus saving an enormous amount in time and expense of loading. Two big cranes are attached to the truck, operated by the engine, capable of lifting the largest steel beams or granite blocks. The total daily capacity of the truck is estimated at 400 tons.

Autos Popular in Switzerland.

Consul H. L. Washington writes from Geneva, Switzerland: It is not generally known that the sale of automobiles is growing fast in Switzerland, especially in this part of the country—i. e., the cantons of Geneva and Vaud, for the canton of Valais, the third canton of this consular district, having but one road accessible (by law) to motor cars along the Rhone valley and only a small number of inhabitants, is hardly worth taking into consideration. Geneva especially has in comparison with the cantonal population (135,000) a large number of these modern vehicles (about 280) and in this respect is far ahead of all the other cantons of Switzerland.

Borax For Discolored Tinware.

If teapots or coffeepots become discolored on the inside, boil in a strong solution of borax for fifteen or twenty minutes. Borax is excellent for cleansing discolored tinware of any kind.

That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25c; your money back if not cured. Sold by R. R. BELLAMY, druggist. †

Rheumacide

The great rheumatic remedy not only cures every form of rheumatism, but makes radical cures of

Contagious Blood Poison,

Scrofula, Sores, Boils, Catarrh,

and all diseases arising from impurities in the blood. Endorsed by physicians and prominent people everywhere after thorough trial.

DOES NOT INJURE THE DIGESTIVE ORGANS.

RALEIGH, N. C.

Gentlemen:—I take pleasure in bearing testimony to the curative properties of your "RHEUMACIDE." Two bottles cured my son of a bad case. If this will be of any benefit to you in advertising your meritorious remedy, you can use it.

Yours truly, W. H. RAND, *Steward State Blind Institution.*

All Druggists, $1.00; or prepaid on receipt of price.

Bobbitt Chemical Co., - - Baltimore, Md.

Drinking Water.

A beginning of kidney trouble lies in the fact that people, especially women, do not drink enough water. A tumbler of water sipped in the morning immediately on rising and another at night are recommended by physicians. Try to drink as little water as possible with meals, but take a glassful half an hour to an hour before eating. This rule persisted in day after day, month after month, the complexion will improve and the general health likewise. Water drunk with meals should be sipped as well as taken sparingly. Ice water ought never to be taken with one's meals and as little as possible between meals. One never knows what is being taken into the stomach in water filled with chipped ice. It is safer to fill bottles with water and allow them to stand beside ice to chill until required.

"Bless This Frugal Meal."

"How do you like the new minister?" inquired one of the leading members of a suburban flock of the deacon's wife.

"I don't like him at all," was the reply. "Of course, I invited him to dine with us when he was here on trial, and naturally enough I apologized in advance for the dinner, but I leave it to you if that afforded him ground to insult me."

"Insult you? Certainly not. How did he do that?"

"Oh, when it came time to say grace he asked the Lord to bless the 'frugal meal,' and really, between us, I must admit that I had made most elaborate preparations."—New York Herald.

Egyptian Astronomy.

The table at Thebes tells us that the sun's journey in relation to some of the zodiacal constellations was perfectly familiar 5,000 years ago in Egypt.

The various apparent movements of the heavenly bodies which are produced by the rotation and revolution of the earth and the effects of precession were familiar to the Egyptians, however ignorant they may have been of the causes. They carefully studied what they saw and attempted to put their knowledge together in the most convenient fashion, associating it with their strange imaginings and with their system of worship.

Quite Willing to Share.

Every one in the Broadway car was watching with amusement the girl reading a special delivery letter addressed in a masculine hand. Evidently "Dear Jack" was an ardent correspondent, for the girl blushed and gave vent to several little cries of delight. The woman by her side had become inquisitive and was glancing over the girl's shoulder. With feminine intuition the girl felt the intrusion and, looking up suddenly, caught the woman red handed. The woman's face reddened when the girl, with crushing sweetness, said, "Are you quite ready for me to turn the page?"—New York Press.

Boon to Rubber Factories.

Mr. John H. Pierce, superintendent of a New Haven rubber company, has just been granted a patent that will save a single factory $500 to $600 per day. His new machine is for coating fabric with rubber. It does not decrease the number of hands employed, but enables each employee to increase the day's output without any additional labor. The new process also eliminates the waste of rubber and saves one process of cutting, as the bottoms and uppers are cut at the same time.

Peculiarities of Radium.

Radium is self luminous, shining with a bluish light. It, like Roentgen rays, makes a sensitive screen phosphorescent, it shows the bones in the hand and is so vigorous that it has produced sores on those who have incautiously carried it about their persons. The radium emits negatively electrified particles with a velocity in some cases approaching that of light.

His Social Repetitions.

"You say his wife had him arrested for repeating? I didn't know she took any interest in political elections?"

"In political elections?"

"Yes, didn't you say she accused him of repeating?"

"Yes. Bigamy."—Catholic Standard and Times.

More to the Point.

The Parson—I intend to pray that you may forgive Casey for having thrown that brick at you.

The Patient—Mebbe yer riv'rence 'ud be saving toime if ye'd just wait till Oi git well an' then pray fer Casey.—Brooklyn Life.

Too Far to Walk.

Leading Lady (of defunct opera company)—I wonder if we'll ever be able to fly.

Manager—Well, that's about the only possible way we'll ever be able to get home.

Cereal Foods

without cream are appetizing, but good raw cream is not always easy to get. Borden's Peerless Brand Evaporated Cream is superior to raw cream with a delicious flavor and richness. Use it for general cooking purposes. Borden's Condensed Milk Co., proprietors. †

CASTORIA.

Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

TANKS OF FACTS.

There Is a Difference Between Information and Knowledge.

A great many people mistake information for knowledge. What a man most needs is not that he may be possessed of an accumulation of facts, but that he may know where to look for the facts when he wants them. We all know the unpleasant individual who is continually seeking information. You show him about your city and he asks: "How many miles of street railway have you in your city?" "What is the price of ice here this summer?" "How many churches are there here?" "How long has that building been standing?" etc., ad nauseam. You don't know and wonder why he wants to. You know where you can find out, and that is enough for you.

And then there is that equally disagreeable person who actually seems to be a tank of facts. He has more information than anything else and delights in asking you most extraordinary questions. When you confess your ignorance, he will look upon you with pity and exclaim, "What, don't you know?" and then tell you when you don't want to know at all. For example, he is much surprised because you don't know how long the Amazon river is. He permits you—nay, he insists—that you should guess, only that he may the better humiliate you. His brain is so incumbtred with facts that it is almost useless. Life is too short for a man to try to constitute himself a library of universal knowledge when the reservoirs of such knowledge are ready to hand when it is needed.—Manchester Union.

Speaking Italics.

A piece of parliamentary repartee quite as good as the famous retorts in the house of commons and our congress comes from a New England university. Two students ranged against each other in debate grew very warm and took to commenting on each other's oratorical manner. One of them spoke with much emphasis, letting the stress of his voice fall explosively on certain passages.

His opponent opened his speech by saying, "My friend on the negative thinks to win this debate by speaking exclamation marks and italics."

The other could do nothing at the moment to turn the laugh which this speech raised, but when his turn came he "got back" at his opponent with this retort:

"My friend on the affirmative says I speak italics. I should say that he uses italics in the way they are used in the English Bible—not to emphasize, but to mark what is not original and inspired."—Youth's Companion.

How Victor Hugo Worked.

Victor Hugo always wrote standing at a high desk especially constructed for him, throwing off sheet after sheet as fast as he filled it till he would be quite snowed up in leaves of foolscap. He often rose in the middle of the night to note down an idea or a verse. He got up for the day usually at 6 o'clock and would devote from six to eight hours per diem to his work. He made but few corrections, his poems being thought out complete in his brain before he put pen to paper. It is a well known fact that he indulged in the arduous task of composition while traversing the streets of Paris on the top of an omnibus. When working out some great conception he would spend hours in this way.

The Khedive and the Rascal.

Even to the adventurers and downright swindlers who hung about his court at Cairo and afterward pursued his wanderings Ismail extended a good natured, half contemptuous patronage. He liked a rogue far better than a fool. Once, when he had formally forbidden his door to a flagrant offender, the man, who knew his character, got a ladder and climbed into the viceroy's room, remarking, "I have obeyed your highness' commands and have crossed your threshold by the window and not by the door." The humor of the thing at once appealed to Ismail, and the offender was reinstated in his favor.—Athenæum.

The Kadiak Bear.

The largest known living carnivorous animal is the Kadiak bear. Although the biggest creature in the western continent, the Kadiak bear has the most limited habitat of any animal in the world. The island of Kadiak, just off the western coast of Alaska, is the only place where it is found. The largest one killed by a white man measured fifteen feet in length and was six feet high at the shoulders. Standing upon his hind legs, this monster would tower nearly twenty feet in the air.—Philadelphia Inquirer.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, June 12.—The cotton market opened strong at an advance of twelve to thirty-eight points, and at first ruled very firm and excited under the surprisingly strong Liverpool cables. These on the New York close of yesterday should have been reported at a decline of two and one-half points. The English market opened one point lower, but by the time of the local opening was about sixteen to twenty points higher on the old and three to five points higher on the new crop options. Private cables attributed the sensational advance to purchase for the account of Egyptian speculators, while many in the local trade were inclined to attribute the gains to the presence on the other side of the New England bull leader, who also is said to have recently sent buying orders into the local market. But whatever may have caused the Liverpool strength local shorts were again completely routed. Foreign houses had buying orders, the South was also an urgent buyer and this, with covering, sent prices up with a rush. July reached 12.30, August 11.84 and September 12.87 within the first few minutes. Almost at once, however, there was enormous realizing which forced July down almost as rapidly as it had advanced until it touched 12 15 and August 11.67 with the new crop months showing a decline from the best of five to sixteen points. The attainment of this level was followed by a period of irregularity during which trading became less active and at midday the market was net twelve to thirty-five points higher. All the afternoon it seesawed within a comparatively narrow range and speculation was generally firm. Just before the close the market was weak under scattered liquidation and reached the lowest point of the day in the last half hour. July selling at 12.08 and August 11.66. There was a slight rally under covering just before the close, but the market was finally barely steady, net thirteen to thirty points lower with July closing 12.10, August 11.68 and September 10.75. Total sales futures estimated at 350,000 bales.

NEW YORK, June 12.—Cotton quiet at 12.35; net receipts 50 bales; gross receipts 2,550 bales; stock 168,888 bales.

Spot cotton closed quiet and 10 points higher; middling uplands 12.35; middling gulf 12.60c; sales 1,900 bales.

Cotton futures market opened strong: June 11.98, July 12.80, August 11.80, September 10 82, October 9.94, November 9.81, December 9.74, January 9.73.

Futures closed barely steady at prices quoted: June at 12.04, July 12.10, August 11.68, September 10.75, October 9.92, November 9.78, December 9.72, January 9.73.

Total to-day, at all seaports—Net receipts 2,997 bales; exports to Great Britain 193 bales; exports to France — bales; exports to the Continent 799 bales; stock 373,265 bales.

Consolidated, at all seaports—Net receipts 13,071 bales; exports to Great Britain 7,895 bales; exports to France 2,847 bales; exports to the Continent 8,011 bales; exports to Japan — bales.

Total since September 1st, at all seaports—Net receipts 7,615,333 bales; exports to Great Britain 2,723,157 bales; exports to France 753,931 bales; exports to the Continent 2,758,690 bales; exports to Japan 135,106 bales.

June 12.—Galveston, firm at 11¼c, net receipts 97 bales; Norfolk, steady at 12c, net receipts 123 bales; Baltimore, nominal at 12¾c, net receipts 231 bales; Boston, quiet at 12.25c, net receipts 276 bales; Wilmington, nominal at —c, net receipts — bales; Philadelphia, steady at 12.60c, net receipts — bales; Savannah, firm at 11¾, net receipts 453 bales; New Orleans, firm at 12 7-16c, net receipts 1,765 bales; Mobile, nominal at 11¾c, net receipts — bales; Memphis, steady at 12¾c, net receipts 96 bales; Augusta, firm at 12c, net receipts 29 bales; Charleston, nominal —c, net receipts — bales.

PRODUCE MARKETS

By Telegraph to the Morning Star

NEW YORK, June 12.—Flour was firm and unchanged. Wheat—Spot quiet; No. 2 red 84c. Options were generally weak all day, except for a brief noon rally on strength in the Southwest and a bullish "Modern Miller." Fine crop weather, easier cables, liquidation and a light export trade occasioned most of the depression. Closed easy and ½c net lower. July closed 81 5 17c; September closed 77¾c; December closed —c. Corn—Spot steady; No. 2 57c. Options were quiet but fairly well sustained on covering, adverse crop news and firmer cables, closing unchanged; July closed 56¾c; September closed 54¾c. Oats—Spot steady; No. 2, 40¾c. Options higher but dull. Lard dull; refined steady. Rice firm. Butter steady; extra creamery 23c; State dairy 17@21c. Cheese firm; State, full cream fancy, small colored, 10¾; small white 10¾c. Cabbages easy; Norfolk, 50c@$1 50. Freights to Liverpool—cotton by steam 12. Eggs steady; State and Pennsylvania 18¾. Potatoes steady—Jersey sweets, baskets $1@1 50; new Southern $2 50@3 50; old prime $2 50@3 00. Peanuts easy; fancy handpicked 4¼c; other domestic 2¾@4¼. Coffee—Spot quiet. Tallow steady. Pork steady. Sugar—Raw firm; refined steady. Cotton seed oil was offered less freely and showed a moderate advance: Prime crude f. o. b. mills 33@34c; prime summer yellow 41@41½c; off summer yellow 37@37½c; prime white 46c; prime winter yellow 46c; prime meal $27 00@27 50, nominal.

CHICAGO, June 12.—There was only a moderate trade in wheat to-day and the tendency was toward lower prices, July closing ¼@¾c lower. July corn unchanged, but oats were 1c higher, with September provisions a shade to ten cents up.

CHICAGO, June 12.—Cash prices: Flour was steady. Wheat—No. 2 spring 78@79; No. 3 spring 74@78c; No. 2 red 75½c. Corn—No. 2 48¼c; No. 2 yellow 48¾c. Oats—No. 2 38c; No. 2 white 39c; No. 3 do. 38@38¾c. Rye—No. 2 50½c. Mess pork, per barrel, $17. Lard, per 100 lbs, $8 80. Short rib sides, loose, $9 30. Dry salted shoulders, boxed, $8 00. Short clear sides, boxed, $9 75. Whiskey—Basis of high wines, $1 30.

The leading futures ranged as follows—opening, highest, lowest and closing: Wheat—No 2 July, old, 76¾, 76, 75¾@75¾, 75¾c; July, new, 75¾, 75¾, 75¾, 75¾c; September, old, 72¾, 73, 72¾, 72¾c; September, new, 72¾, 73, 72¾, 73¼@72¾c. Corn—No 2 July 48¾, 48¾, 48¼, 48¾c; September 47¾, 47¾, 47¾, 47½@47¾; December 46¼, 46¼, 46, 46¼. Oats—No. 2, July 37, 38, 36¾, 38c; September 33¼ 33¾, 33, 33¾c; December 33¾, 33¾, 33¼, 33¾. Mess pork, per bbl—July $17 12½, 17 15, 17 10, 17 15; September $16 0, 16 92½, 16 80, 16 90. Lard, per 100 lbs—July $8 87½, 8 87½, 8 82½, 8 87½; September $8 97½, 9 00, 8 97½, 8 97½. Short ribs, per 100 lbs—July $9 32½, 9 37½, $9 33½, 9 32½; September $9 25, 9 30, 9 25, 9 27½.

FOREIGN MARKET

By Cable to the Morning Star.

LIVERPOOL, June 12.—Cotton: Spot in limited demand, prices 14 to 16 points higher; American middling fair 7.18d; good middling 6.98d; middling 6.82d; low middling 6.60d; good ordinary 6.36d; ordinary 6.16d. The sales of the day were 6,000 bales, of which 500 bales were for speculation and export and included 4,900 bales American. Receipts 2,000 bales, no American.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY FOR THE BLOOD, LIVER, LUNGS.

Answer it Honestly.

Are the Statements of Wilmington Citizens Not More Reliable Than Those of Utter Strangers.

This is a vital question.

It is fraught with interest to Wilmington.

It permits of only one answer.

It cannot be evaded or ignored.

A Wilmington citizen speaks here.

Speaks for the welfare of Wilmington.

A citizen's statement is reliable.

An utter stranger's doubtful.

Home proof is the best proof.

J. E. Bloodworth, residing at 30 South Front street, and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had shooting pains through my back and side which often made me yell right out. If I stood, sat or lay down or kept in any one position for any length of time it was almost impossible for me to move on account of the great pain. I heard some one speak in praise of Doan's Kidney Pills and I sent down to Bellamy's drug store and got a box. They completely knocked the pains out of me. They are without doubt, a valuable remedy for back ache."

For sale by all dealers. Price, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute. je 7 1w

Bug Death

Kills Potato, Squash and Cucumber Bugs, Currant and Tomato Worms, and all bugs and worms that chew the leaves of plants.

BUG DEATH is a tenacious powder, very fine, like dust, adheres to the vine, and is almost impossible to wash off.

BUG DEATH can be applied dry with Perfection Shaker or a coarse cloth, or, what is better, mixed with water at the rate of 1 pound to 5 gallons water, and sprayed with any of the hand sprayers.

Bug Death Kills the bugs. Feeds the plant. Increases the yield. Produces better quality

The phenomenal sale BUG DEATH has had during the comparatively short time it has been on the American and Canadian markets, and the hearty endorsement given by truckers and merchants throughout both countries must convince the most skeptical that

TEETHINA Counteracts and Overcomes the Effects of the Summer's heat upon Teething Children, and costs only 25 cents at Druggists, or mail 25 cents to C. J. MOFFETT, M. D., St. Louis, Mo.

EMPTY HOUSE "JUMPERS."

Take Possession and Hold Premises Against All Comers.

As a property agent in London, let me say that the public can never form any conception of the number of empty house "jumpers" who exist in the metropolis and who, seeing a house empty and apparently neglected, boldly break in and take possession and continue to hold the premises against all comers, even when they are discovered.

The jumper usually chooses his house with great deliberation. As an instance there is in south London a gentleman, a property owner, who will keep his houses empty for years rather than let them at anything below the rent he has himself set. The jumper sees such a house as one of these referred to, and he notes that it is seldom visited by any one. He is soon inside, and then no one thinks of dispossessing him till the owner happens to come round. Even then a legal process has to be gone through. I could give you an instance at Brixton where the jumper never heard of an inquiry for two years. In this case the house was a furnished one, and the owner, an official in India, was absent. At the same time, too, the jumper was filling the house with lodgers and doing very well out of the affair. Three months were expended in legal processes before repossession was obtained.

The most dangerous class of jumper is one similar to those who were convicted not long ago. In this case the jumper had taken possession of the houses—places neglected and belonging to absentee owners—and had boldly sold every scrap of the building material, and no one had ever thought of questioning his right, though the houses demolished were in a well frequented street, and every stick and stone was removed. But small house property is the usual mark of the jumper.—London Tit-Bits.

RELICS OF EARLY DAYS.

Rail Fences and Dugout Canoes Survive Civilization's March.

One of the remarkable features of country life in America is the singular persistence of the rail fence and the dugout canoe. No matter how thickly settled a section may become or how long it may have been settled, these two survivors of early settlement linger on as stubbornly as ever. Today in the thickest settled parts of New England and New York the rail fence is met with, while the shad fishermen of the Potomac and James rivers and Chesapeake bay, on the banks of which the first English settlements in America were established, still manufacture and employ the old dugout canoe in making the grounds of their shad nets.

[illegible] the simplest and most primitive water craft known and was used by prehistoric man, both in this country, Europe and Asia. It is made out of a log of wood by trimming the outside down to the proper proportions of a boat and by "digging out" the inside with an adz and by the aid of fire. The Potomac river dugout is today pretty much the same as it was in the days of Powhatan and differs from the general run of dugout canoes in the absence of a curved bow and stern and in having rather high sides, which rise to a summit from either end of the boat, being highest in the middle, where the seat is placed.—Washington Post.

Canny In Second Engagement.

For years a young man and young woman had been engaged, and each had economized with a view of having the more to spend when they should marry. Six months ago, however, the engagement was broken, and shortly afterward the young woman became the fiancee of another man. This man she encourages to spend his money lavishly—on her. He has bought her beautiful silver for her toilet table, the latest design and engraved with her initials; a handsome leather traveling bag completely fitted out, rugs, books and other articles to make home comfortable.

"No more economizing for me," says the girl. "If he invests so much in me, we won't be so likely to quarrel, and certainly he will not have the money to spend on another girl," which is the wisdom that rules sentiment in these modern days.—New York Press.

Those Dull Ducks.

I recall Mr. Lowell telling, jocosely, in an after dinner speech in Cambridge how he met an acquaintance (of dubious standing) whose cheerful face and happy demeanor led him to ask the cause of such exuberant felicity.

"Why," said the genial smiler, "I've discovered a way to make my fortune. We all know that the reason for the fine flavor of the wild duck is the wild celery on which it feeds. Now, I propose to feed it to the domestic duck and supply the market."

Some weeks later, on meeting his acquaintance again, Mr. Lowell found him quite depressed and inconsolable. "Why are you looking so unhappy? I thought the last time I saw you that you were on the point of making your fortune with ducks. Wouldn't it work?"

"No," was the reply; "the things won't eat it."—Atlantic.

Tartly Answered.

The principal of a certain high school tells a joke on himself with much enjoyment. One day during an examination, when he was visiting the various rooms, he stopped to ask a very bright boy a sum in algebra, and, although the problem was comparatively easy, he could not answer it. The principal remarked with some show of severity:

"My boy, you ought to be able to do that. At your age George Washington was a surveyor."

The boy looked him straight in the eye and answered:

"Yes, sir, and at your age he was president of the United States."

The conversation dropped at that point.—St. Louis Post-Dispatch.

Men and Apes.

Were it not, as Huxley says, that "the ignorance of the so called educated classes is colossal," there might be need for apology in restatement of the fact that man is not descended from the ape. The relationship between them is lateral, not lineal, both being offshoots of the same stock, but each remaining, of course in very different degrees of development, isolated groups of mammals.—Edward Clodd's "Thomas Henry Huxley."

Punctuate It.

Take this sentence, printed nakedly: "It was and I said not of." As it stands it is enough to give the reader vertigo before he grasps its import. Properly stopped and buoyed with commas, it is a perfectly simple and natural sentence, as you will see when you have got the grip of your senses. —London Chronicle.

Women's Dragging Pains

MRS. MAUDE BUSH,
Secretary Societe Francaise, (Femme.)
No. 2825 Eccley St., Chicago, Ill.

Chicago, Ill., October 2, 1903.

There is nothing of so much interest to a sick woman as getting well. I write this to sick, thoughtful women who have dragged along a weary existence not knowing which way to turn for health. I have been in this precarious condition, but today I am in perfect health, thanks to Wine of Cardui. I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. My attention was called to it by a little booklet and I decided to try it. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to scourse through my veins and after using eleven bottles I was a well woman.

I am glad to be able to give this testimonial as I am now in perfect health.

Mrs Maude Bush

Could Mrs. Bush have given a happier message than this to the thoughtful sufferers to whom she gives advice? What like health can bring the sufferer nearer to enjoying life? To make a sick woman well is to open almost every door of blessing and privilege to her—the blessing of having children in her barren home, the privilege of taking part in the real affairs of life.

Yet thousands of women are continuing to suffer without making the effort to secure health—the health that would give strength instead of weakness, vigor instead of pain, happiness instead of dejection and hope instead of despair.

If you are suffering what can be of more interest to you than the fact that Mrs. Bush was in a precarious condition, weary of existence and is now in perfect health because she took Wine of Cardui for menstrual pains, bearing down pains and blinding headaches when all other remedies failed to bring her relief?

This should bring you to consider her letter seriously and to decide to give Wine of Cardui a trial. This is not a diagnosis and a theory as to how a cure can be worked. It is a case demonstrated by this prominent Chicago woman herself.

Is there any doubt in your mind that you can be cured by Wine of Cardui the same as Mrs. Bush was cured? Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle with its quick and lasting relief soon convinces the patient she is on the road to health.

Will you secure a $1.00 bottle of Wine of Cardui from your druggist and start today the treatment which brings perfect health?

For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

WINE of CARDUI

The Sculptor's Dilemma.

In his studio in a puddle in the back yard Clara's young brother was hard at work on mud pies when Dobbins, Clara's young man, spied him and began to cultivate his acquaintance.

"Well, what is the little man doing there?" he asked.

"Makin' the fam'ly," answered the little man. Then, pointing to the biggest and softest pie, he added, "This here one is pap, this nex' one is mam, the nex' one is sister Sue an' the nex' one is sister Clara."

"And is that all you can think of, Willie?"

"Yep."

"But where do I come in, little man?"

"You? Oh, yes! Well—well—you see, I ain't got mud enough," the sculptor explained.

Amazed the Duchess.

According to a London weekly, the Duchess of Marlborough is astounded at the extravagance displayed by New York society during her present visit to relatives there. Especially was she amazed at the splendor of an entertainment given in Newport by the wife of her kinsman, Cornelius Vanderbilt, who brought an entire company over from New York to amuse her guests one evening.

A Translation.

An American woman in Japan bought a can of mushrooms and found the directions translated into English as follows:

"Directions.—If several person will be to eat this in that manner they shall feel satisfied nutrition and very sweet or it can put in the hot water for the half hour and then take off the lid. They shall be proper to eat. It can be supply without putridity for several years."

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newsom, of Decatur, Ala. "For three years," she writes, "I endured insufferable pain from Indigestion, Stomach and Bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I am completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by R. R. BELLAMY, druggist. †

The Summer Season

Is Opening Up Fine!

The great public knows how to appreciate good things. Our May business was a record breaker, the largest we have ever had.

While we thank our friends and customers for their liberal patronage during the month of May, we are trying now hard to heap new laurels on June's head. Our big store on Front street is kept busy all the while. If you haven't been trading with us we would like to know the reason. We want your business. We have just received lots of new goods this week.

In our millinery department, I think the young ladies can show you the greatest variety of hats in North Carolina. Having closed out one of the best Hat Houses in Philadelphia of a large quantity of their lots, we are now selling 79c hats for 48c and 69c hats for 38c and 50c hats for 25c. We have as many hats as you want for 10c each.

We have a handsome line of new Tuscans in flats and shapes; hats that are worth $1.25 for 98c. A grand assortment of flowers that are fresh and new. We are selling them cheap. A great many flowers we are running at 10c each to clean out the different lots, some of them were worth 50c per bunch. We have a great many Roses at 10c per bunch, extra large. A nice line of new fruits, grapes and cherries. A new line of Daisy Wreaths that sold at 50c now 29c.

Ribbons! Ribbons! They are much worn this year—more so than they have been in ten years. On our counters you can see as many as 5,000 rolls Ribbon; nothing but what you can get if you call for it. Our prices are much cheaper than regular stores. In 10c. Ribbons we will sell as good a line as can be sold anywhere for 10c. A big line of Sash Ribbons in Nos. 60, 80 and 100, from 39c. to 60c. yard. New Laces, appliques and allovers; for pretty goods in this line we think we are able to compete with any in quantity, styles and prices. We have allover lace from 20c. up to $3.00 yard; Val. Lace, 10c. doz. up to $1.50 doz.

We have a grand variety of patterns in 25 and 50c. per doz. laces. We have a full line of Embroidery and Insertions, of which you can make a nice selection at popular prices. In Ladies' Muslin Underwear we have an enormous stock, all pretty goods, made with felled seams and double-stitched full sizes. Corset Covers, Night Gowns and Skirts—we can please your taste and your pocket book. Ladies ready to wear skirts—we have received a large shipment this week, one of overskirts and one of underskirts. In top skirts we have them nicely made with corded pleats, which we are running at $1.50 each.

Beautiful black and gray skirts with the new style band pleat we are selling at $2.50, $2.75 and $3. We have a large line for $3, $3.50, $4 and $4.50 each. We manufacture skirts for Ladies who want them made to their measure.

In the Cloth Department, we have just received 5-piece black Piques with extra large cord that we are running at 9c per yard. We have about 1,000 yards fine 10c lawns slightly misprinted in some places, we are running at 6c. Three thousand yards unbleached shirting we are selling at 4c a yard. A splendid line shirtwaist silks at 48c a yard. A fair quality of bleaching in remnants at 5c a yard. A lot of fine cambrics in remnants 2 to 10 yard pieces, assorted qualities up to the best, for 6c a yard. Heavy cotonade pants cloth for 10c a yard. In new Dress Goods we have received a nice line of black goods, also nice Ginghams. You must know we handle everything. You can get everything. You can get everything your memorandum calls for. We punch your cards and give presents free. We do a large business, but we need your assistance. Come to see us when in need of anything in the Dry Goods line.

The Morning Star.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 13.

THE PERCY JONES MURDER.

Two More Men Arrested at Wilson and Lodged in Jail—Case Comes to Trial Next Week.

By Telegraph to the Morning Star.

RALEIGH, N. C., June 12.—On information given by Frank Dixon, who was arrested yesterday in connection with the killing of Percy Jones, Fate Langley, a clerk of Gil Ward, one of the indicted men, was arrested and placed in jail this morning. Dixon said that a few nights after the murder he went for a walk with Langley and that near a place owned by J. T. Barnes, Langley pulled a sack containing a disjointed gun from a clump of bushes and later threw the gun into an old well, saying he had been told to destroy it. Mayor Herring, Chief of Police Marsburn and Officer Ellis testify that without offer of reward Dixon told them the same story in toto. Dixon and Langley were returned to jail, Langley's bail being fixed at $400, which he was unable to give. The case comes to trial next week.

THE WORLD'S COTTON.

Total Visible Supply as Shown by Secretary Hester's Statement.

By Telegraph to the Morning Star.

NEW ORLEANS, June 12.—Secretary Hester's statement of the world's visible supply of cotton, for the week ending June 12th, issued to-day, shows the total visible to be 2,470,880 bales, against 2,645,121 last week and 2,765,949 last year. Of this the total of American cotton is 1,361,880 bales, against 1,486,121 last week and 1,809,949 last year, and of all other kinds, including Egypt, Brazil, India, etc., 1,109,000 bales, against 1,159,000 last week and 954,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and Continental Europe 1,366,000 bales, against 1,621,000 last year; in Egypt, 48,000 bales, against 101,000 last year; in India, 708,000 bales, against 505,000 last year, and in the United States, 354,000 bales, against 537,000 last year.

COTTON YARN SPINNERS

Call for a General Conference to be Held in Charlotte June 18th.

By Telegraph to the Morning Star

RALEIGH, N. C., June 12.—A call for a general conference of the Southern cotton yarn spinners has been issued by Percy H. Brundage, Victor I. Cumnock and Henry F. Seving, of 49 Wall street, New York, who ask the spinners to meet in Charlotte at the county court house on Thursday, June 18th, at 11 o'clock.

The call states that the signers have recently visited the South, and in interviews with leading cotton yarn spinners have learned that they would welcome a merging of their interests if a plan could be developed looking rather to mutual co-operation than to an arrangement of purchase and sale of the properties. This plan they say has been formulated and has been approved by several large spinners.

ORDER OF HEPTASOPHS.

Convention Adjourned to Meet Next Year at Milwaukee, Wis.

By Telegraph to the Morning Star.

RICHMOND, VA., June 12.—The convention of the Improved Order of Heptasophs adjourned this evening to meet next at Milwaukee, Wis., in June, 1905. Most of the day was taken up in the work of increasing the salaries of Supreme Lodge officers. The following are those who were benefitted: Supreme archon and supreme treasurer from $3,000 and $3,300 respectively to $4,000 each; treasurer, from $1,600 to $1,800 and $300 for stenographer; organizer from $1,800 to $2,200 and $300 for stenographer and general counsel $3,200 and $800 for stenographer. No pay was allowed trustees.

The installation of officers concluded the session here and most of the visitors left for their homes to-night.

COMPARATIVE COTTON STATEMENT.

THE CRISIS IN SERVIA'S AFFAIRS.

Belgrade Reported Quiet, But Accounts Differ As to Attitude of the People

DETAILS OF THE MASSACRE.

Burial of the Murdered King and Queen Sensational Stories—No Exchange of Communication Between the Powers Over the Matter.

By Cable to the Morning Star.

BELGRADE, SERVIA, June 12.—Everything is quiet thus far throughout the country, according to all official and other reports.

King Alexander and Queen Draga were buried during the night in the family vault of the Obrenovitchs in the chapel of the old cemetery of St. Marks. The interment was carried out with complete secrecy between half-past one and three o'clock this morning. Colonel Daumovics, aide de camp of the late King, was buried this afternoon. The city is lavishly decorated with flags and the national colors. All officers yesterday removed Alexander's cipher from the cockades of their caps.

The funeral occurred at 1:30 A. M. The strictest privacy was maintained in order to avoid hostile demonstrations. Two coffins were brought in by servants and were carried up to the room where the bodies of the late king and queen were lying. The corpses were then put in the coffins and the latter were placed in a hearse, which was hurriedly driven to the old cemetery, where the other members of the Obrenovitch family are interred. In addition to the attendants only two priests were present at the funeral. The Metropolitan of Belgrade was absent. The whole ceremony lasted but a few minutes.

The body of the late Premier Markovitch will be buried with military honors.

Colonel Naumovics, who was killed while forcing an entrance into the place with dynamite, is described in the official notice of his death as "dying on the battle field of honor for his fatherland."

It is now confirmed that only Queen Draga's two brothers were killed. Her sisters were taken to Pancsova by some of the conspirators.

In the course of an interview to-day, Premier Avakumovics said:

"We ministers only accepted office in order to avoid the country fallingin to a condition of anarchy. As soon as a king is elected he will have to appoint a definite cabinet. The Skupschtina can decide the fate of the country, quite independently of the army, though an agreement seems probable. In the event of the election of Prince Karagorgevitch, a deputation will go to Geneva, inform him of his election and invite him to come to Belgrade. He will be Peter The First.

"The constitution of 1901 will be the basis of the future governmental system. As to the present position of the country, calm prevails everywhere. There have been no disturbances and the situation promises to become better in the future. Those who speak of excited popular sentiment and predict further changes are entirely wrong."

The Massacre.

BERLIN, June 13.—A dispatch to the *Cologne Gazette* from Belgrade to-day says the massacre lasted three-quarters of an hour. The assailants declared the killing of King Alexander was unavoidable because if the queen alone had been murdered or removed the court clique would have incited the king to persecution and reprisals.

A window of the Russian legation at Belgrade was shattered by a bullet during the fusilade at the palace.

The flag was half-masted over the Servian legation here to-day. Most of the members of the diplomatic corps called to express condolence.

A dispatch to the *Lokal Anzgier* from Belgrade says the provisional government of Servia is bringing troops there from the country, preparatory to resisting Austrian intervention if it comes.

The backbones of both King Alexander and Queen Draga, it is announced here, were broken in consequence of the violence with which the sovereigns were thrown from the windows of the palace.

A special dispatch from Zurich says Prince Peter Karagorgevitch studied at the University there for eight years. He is described as a zealous Socialist and as being the companion now of the German Socialist leaders Von Wolmar, Fisher and Tausky. The prince at Zurich was called "Red Peter" or "The Red Prince."

An interview with Colonel Mischieb, who was the leader of the military party which burst into the palace at Belgrade Wednesday night, is published here. The colonel is quoted as saying:

"There were a number of us. Whether it was I who fired the first shot is simply conjecture. The chief point for us is that our work was successful. We have rendered the fatherland a tremendous service, and we are highly satisfied at our success. The first shot at M. Petrovitch was from the revolver of Captain Ristics, who is a noted marksman. Petrovitch was hit in the forehead and fell dead."

A dispatch from Budapest says the garrison of Nish, where the late King Alexander was most popular, is, according to a railroad official who has arrived at Budapest from Belgrade, marching on the Servian capital with full war equipment and artillery.

Sensational Stories.

Sensational stories, many of which are undoubtedly being sent for the purpose of political influence, are published here, the most revolting of them being that the soldiers outraged Queen Draga and mutilated the body of King Alexander and that those who were admitted to the palace yesterday to view the remains spat and stamped on them.

The telegrams from Belgrade differ as to the attitude of the Servians. Some of them say that only the military element desires Prince Kragorgevitch to be King, others say the Servians want Prince Mirko, of Montenegro, to rule over them, while many of the more intelligent section of the population are in favor of the establishment of a republic.

As Viewed in Paris.

PARIS, June 12.—The Foreign Office here received a dispatch to-day from the French agent on the Servian frontier confirming the press announcements that the new government at Belgrade had abolished the legislative assembly created by the late King Alexander and had renewed the ancient skupshtina, which has been ordered to assemble next Monday for the purpose of ratifying the proclamation of Prince Peter Karageorgevitch as King. The assembly just abolished was made up of appointees of the late King and did not contain a member who was opposed to Alexander's policy.

The dispatch adds that Belgrade continues quiet, the people apparently being reconciled to the new conditions. The officials here doubt the truth of the reports that Belgrade is quiet, as the authorities here are unable to secure further direct dispatches from Belgrade. Even the official dispatches which have reached Paris appear to have been mutilated.

It is stated authoritatively that thus far there has been no exchange of communications between the powers concerning Prince Peter Karageorgevitch's assumption of the throne of Servia, but the officials are beginning seriously to consider the delicate question of the recognition of the new sovereignty. It is expected that the Servian authorities will convoke a meeting of the foreign ministers at Belgrade and present the latter with definite evidence that the people accept the new government and that it has the ability to maintain order and guarantee the safety of foreigners. When the ministers advise their respective governments that such assurances have been received, the various powers will determine whether recognition will be accorded.

Former Queen Natalie of Servia is so deeply affected by the murder of her son, King Alexander, that she is unable to leave the apartments at Versailles of her sister, Princess Ghika, wife of the Roumanian minister. Intimate friends of the queen believe she will remain completely isolated at Versailles till the Servian crisis is over. The queen's nephew said to-day that she is resolutely determined not to make any public statement.

Russia and Austria.

LONDON, June 12.—The Servian minister here has received confirmation of statement that neither Russia nor Austria will interfere in the Servian choice of a sovereign. He anticipates that Prince Peter Karageorgevitch will await at Geneva a summons from the Skupshtina, a deputation from which will probably go to Geneva and escort the new king to Belgrade.

A special dispatch from Belgrade says the bodies of King Alexander and Queen Draga were buried in a large pit, dug in the village of Rakovic, and that, as a mark of ignominy, the bodies of their murdered relatives and those of the ministers killed were placed above them and then the common grave was refilled with earth.

Favor a Republic.

BELGRADE, June 13.—The only new element in the situation is a feeling among the intelligent classes in favor of the abolition of a Servian monarchy altogether and the creation of a republic, and this sentiment is shared by at least one member of the provisional government. Difference of opinion on this point developed to-day at a meeting of the cabinet, when the new foreign minister, Ljubonir Kallevies, expressed his leanings in favor of the establishment of a republican form of government. The majority of the ministers, however, declared themselves in favor of a new King in Prince Peter Karagorgevitch.

KNIGHTS OF HONOR.

Proceedings of the Supreme Lodge in Session in Richmond, Va.

By Telegraph to the Morning Star.

RICHMOND, VA., June 12.—The Supreme Lodge, Knights of Honor, today handed down a decision in the appeal case of A. S. Branch, of Louisiana, reversing the supreme dictator and sustaining the appellant.

An important matter was a change in the method of collecting the general fund assessment and the lodge dues. These collections will after December 1st next both be made monthly.

Another death of a prominent member has occurred to further make the session of the lodge a gloomy one. A telegram read to-day announced the demise of Supreme Representative Murray, of Massachusetts. It was voted to-day to make George W. Tender, of Indiana, and Harry Walters, of Louisiana, past grand dictators for meritorious services. It was also voted to donate a full line of supplies to Vermont Lodge, of Jacksonville, Vt., which recently lost its building, supplies, etc., by fire,

CATLETT MURDER TRIAL.

Defendant Found Guilty of Murder in First Degree—Mitigating Circumstances.

By Telegraph to the Morning Star.

LOUDEN, TENN., June 12.—The jury in the Robert Catlett murder trial returned a verdict this afternoon, finding the defendant guilty of murder in the first degree with mitigating circumstances. Catlett will probably be sentenced to serve a life term in the penitentiary. Catlett was charged with having hired two men named Winn and Tipton to murder William Whaley and wife, two renters of Catlett's and who had given evidence against him in white cap outrages. The murder of the Whaleys was a brutal one, the mother being killed with a child in her arms. Winn and Tipton were hanged for their crime but they made affidavits that they had been hired to do the deed by Catlett.

LYNCHING IN LOUISIANA.

Negro Murderer Hanged by a Mob Near Alexandria.

By Telegraph to the Morning Star.

ALEXANDRIA, LA., June 12.—J. M. Ditter, a white man, forty years of age, employed as head carpenter at the Crowell and Spencer saw mill at Long Leaf, this parish, was murdered last night by Frank Dupree, a mulatto about twenty-one years of age. The negro was arrested, but as the officer was bringing him to the jail at this place he was overpowered. Dupree was hanged to a tree and his body riddled with bullets.

REWARD OFFERED

For the Arrest of the President of the Wrecked Bank at Bessemer.

By Telegraph to the Morning Star.

MONTGOMERY, ALA., June 12.—Governor Jelks to-day offered a reward of $300 for the arrest of President T. J. Cornwall, of the wrecked savings bank at Bessemer who fled the country, leaving a statement acknowledging that he had misappropriated the bank's funds. The shortage is estimated at $335,000.

LAND SLIDE ON SOUTHERN R. R.

The Side of a Mountain Caved In Between Spartanburg and Asheville.

SHUTS OFF ALL TRAFFIC.

Disaster Will Cause Annulment of All Trains on This Road for at Least Seven Days—Another Crack in the Mountain.

By Telegraph to the Morning Star.

ASHEVILLE, N. C., June 12.—The side of a mountain caved in on the Southern railway tracks between Spartanburg and Asheville at noon to-day. Thousands of tons of rock and dirt plunged downward, completely filling one of the largest railroad cuts in the mountains of western North Carolina and effectually shutting off all traffic from the South. The land slide occurred near Tryon, N. C., just at the foot of Saluda mountain.

The road just had succeeded in resuming operations of trains which were blocked by washouts in Spartanburg county last week, yesterday being the first day that regular schedules were in effect.

The present disaster will cause the annulment of all trains on this road for at least seven days, as the authorities say that it will be impossible to clear the track before that time. It is also given out that another crack is seen in the mountain just in the rear of the cliff from which to-day's avalanche descended, and it is predicted that another tumble of earth and rock will occur, in which case the railroad people say that it will be at least twelve days before the running of through trains can be resumed.

The train which started from this place for Columbia at 4 P. M., to-day was wrecked when within two miles of Hendersonville, N. C. The engine, baggage, mail and express cars and one passenger coach were derailed. Postal Clerk Horace G. Cliff received severe bruises and the fireman also was injured. The cause of the wreck is unknown.

MURDER OF LAWYER MARCUM

Continuation of the Trial of Alleged Conspirators Jett and White at Jackson, Ky.—Examination of Witnesses.

By Telegraph to the Morning Star.

JACKSON, KY., June 12.—A number of correspondents arrived here to-day, including magazine writers and artists for illustrated papers. Provost Marshal Longmire has made no arrests for two nights and two days. Since he closed the "blind tigers" there has been no shooting during the night. The free use of weapons in the carousals around these places led to reports at times of bands of feudists coming into town to attack the jail. Court had to take the noon recess to-day earlier than usual because the next witness was unable to get on the witness stand and it was evident that liquor is still available from some sources.

The feature of the trial to-day was the drift of evidence toward a conspiracy implicating county officials and others and tending to show that Jett and White had no such motives as conspiracy, but simply were hired to kill J. B. Marcum who was the attorney for parties contesting the election of county officials. The defence during the forenoon moved to have the case continued on account of the absence of witnesses and again in the afternoon on account of the illness of one of the attorneys for the defence. In both instances Judge Redwine ordered the trial to proceed.

The first witness to-day, William Hurst, was questioned regarding a plot to assassinate Marcum, in which two county officials were implicated. William Eversole and other witnesses were examined as to the alleged conspiracy.

Abner, Smith and Weitner are said to have been in the plot to assassinate Marcum. Abner afterward made affidavit which was filed in court, stating that the plots were formed in the office of County Judge Hargis, and that the judge and Sheriff Ed. Callahan were furnishing the money.

Mrs. Johnsen testified also to this information being furnished her brother by Feltner. Now the defence claims that these men are badly needed. Feltner has forfeited a bond of $3,000 after being granted a new trial for the murder of Jessie Fields in the French-Eversole feud. Marcum was his lawyer and secured a reversal in his case. Because he was a friend of Marcum, it is alleged he was picked out to assassinate him, as he would not be suspected, a pardon for the Fields murder being the reward promised.

COAL DEALERS FINED.

Found Guilty of Conspiracy in Restraint of Trade by an Illinois Court.

By Telegraph to the Morning Star.

CHICAGO, June 12.—In an opinion delivered to-day by Judge Horton, members of the Northern Illinois Coal Dealers' Association were found guilty of conspiracy in restraint of trade and were fined $500 each. The members of the Retail Coal Dealers' Association of Illinois and Wisconsin were denied a motion for a new trial and fined $100 each.

IN PRIVATE AUDIENCE.

Bishop Leo Haid of Belmont, N. C., Received by the Pope.

By Cable to the Morning Star.

ROME, June 12.—The Pope to-day received in private audience Bishop Leo Haid, of Belmont, N. C., and Thomas St. John Gaffney, of New York. Hearing that Mr. Gaffney was a friend of President Roosevelt, the Pontiff requested him to convey to the President an expression of his high consideration and admiration. Mr. Gaffney thinks the Pope looks well and bright.

Go to Raleigh.

Knight's Big Excursion to Raleigh will be run over the fast and elegant Atlantic Coast Line on Monday, June 22d, affording all a splendid opportunity to visit the Capital City at a trifling cost. No one ever regrets a visit to Raleigh, but having gone will go again. If you would go on the best excursion to be offered this year, go to Raleigh and you will make no mistake. Don't let this rare chance go by. Don't go to slow, dead towns, but go to Raleigh, the city of pleasure. Train leaves A. C. L. depot at 6:30 A. M.; returning, will leave Raleigh at 12 o'clock midnight. Round trip only $1.50. Passengers will be taken at all stations south of Goldsboro. †

KANSAS CITY FLOOD SUFFERERS IN NEED.

Twenty-three Thousand People Made Homeless and Dependent—An Appeal to the Public for Aid.

By Telegraph to the Morning Star

KANSAS CITY, MO., June 12.—Kansas City, Kansas, is still sorely in need of aid for its flood sufferers. A second urgent appeal to the country at large has been issued by the relief committee of that city, as follows:

"The destitution on the part of the flood sufferers in Kansas City, Kansas, demands immediate relief. Local charity is totally inadequate to meet the situation. Outside assistance is imperative. Two entire wards and parts of two others, comprising at least 23,000 souls out of a population of 60,000 in the entire city, are made homeless and dependent. Hundreds of their homes have been swept away and those that remain have been left with a deposit of filth, both inside and out, of from one to three feet in depth.

In most instances persons were able to save only the clothing they wore. Their household goods and clothing have been swept away or destroyed by water and mud. The authorities will be unable to cope with existing conditions unless the outside public shall come to their aid. Money and supplies in large amounts will be needed to prevent extreme suffering.

"All donations from the general public should be sent to Thomas B. Gilbert, Mayor of Kansas City, Kas."

WARM WIRELETS

The United States battleships Indiana and Texas and the training ship Hartford have arrived from Annapolis, at Newport News.

A draft of eighty-four sailors leave Norfolk to-day from the receiving ship Franklin for San Francisco, to sail thence by the Solace for the Asiatic station.

The strike in Arizona is settled. The men accepted the companies' offer of nine hours pay for eight hours work. The territorial guard will leave camp to-day.

The thermometer at Louisville, Ky., yesterday morning registered 44 degrees, the coldest ever recorded here in June. Frost was reported from several places in Kentucky.

General Alexander McDowell McCook, U. S. A., retired, suffered a third stroke of paralysis yesterday morning, and died a half hour later at the home of his daughter, Dayton, Ohio.

Governor Heard of Louisiana has signed the death warrant of A. E. Batson, of Missouri, convicted of the murder of seven members of the Earl family, and fixed August 14th as the date of the execution.

Capt. Jewitt, of the schooner Eleanor A. Percy, at Norfolk, reports having sighted a derelict schooner supposed to be the E. H. Weaver. The wreck is in the pathway of coastwise vessels and a great menace to navigation.

Twenty Bulgarians were killed at the village of Yenije, Roumelia, recently in a combined attack made on it by a detachment of troops and neighboring Mussulman villagers. Fifty prisoners were taken to Adrianople.

Edward McIntyre, the Minooka, Pa., hotel keeper, who ended a forty-two days' fast at noon last Tuesday, died yesterday. McIntyre began the fast in the hope that it would prove beneficial in a severe attack of paralysis. He was forty-seven years old.

Lewis Bolin, aged sixty, was killed at Sneedville, Tenn., by his thirteen year old stepdaughter, who struck him in the back of the head with an axe. Bolin was punishing one of his stepsons, when the boy called to his sister for help. The two children are in jail.

Major W. H. Gibbes, who is said to have fired the first shot of the civil war on Fort Sumter, died yesterday in Columbia, S. C. Major Gibbes was a gunner in Captain George James' company to whom General Beauregard sent the order to open fire on Major Anderson.
